Editor At Large, National Geographic Traveler Chairman, World Travel and Tourism Council – Tourism for Tomorrow Awards <u>costas@beyondgreentravel.com</u>

TURISMO COMPITE, CARTAGENA 1 November, 2012

The global travel and tourism industry is growing rapidly and changing in new ways

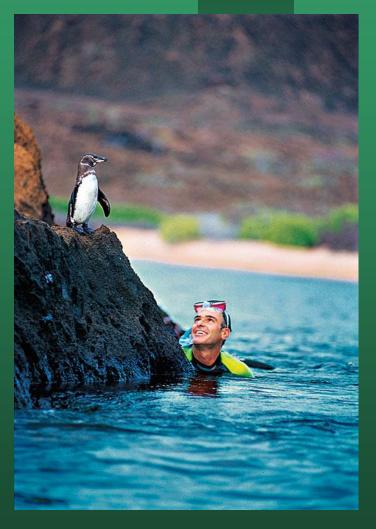

Nature and adventure travel continue to be the fastest growing sector in travel and tourism

What is Nature Tourism Ecotourism and

Sustainable Tourism?

Major progress continues to be made in terms of linking tourism, environmental best practices, cultural and natural heritage preservation, and local community benefits. More and more destinations are making this part of their tourism product

Sustainable tourism has its roots in low-cost, eco-friendly and culturally authentic holidays. Today it runs the full spectrum, from budget to high end, and from groups to solo travelers Sustainable Tourism has demonstrated itself to be an important and profitable way for tourism to expand in an environmentally friendly manner with direct benefits to local communities, cultural heritage and nature conservation

Authenticity is the new luxury in tourism with nature and cultural destinations

Camping in Serengeti National Park

More and more travelers today are seeking out the Earth's last unspoiled places and also want their trip to help protect them for future generations

Teaching tourists about local foods at Six Senses in Sri Lanka

Staying with the local community in Morocco

Resort including cultural heritage preservation at Six Senses Zighy Bay, Oman
